Groceries and Dry Goods

SAVING TIME is just as important
as saving money when buying the
necessaries of life. And by making
as many of your purchases as possible
in one place you can accomplish both
results, providing you buy here.

OUR GROCERY DEPARTMENT is
complete in every respect and our
goods are always fresh, clean and
wholesome—our prices so low that
you could not afford to trade else-
where.

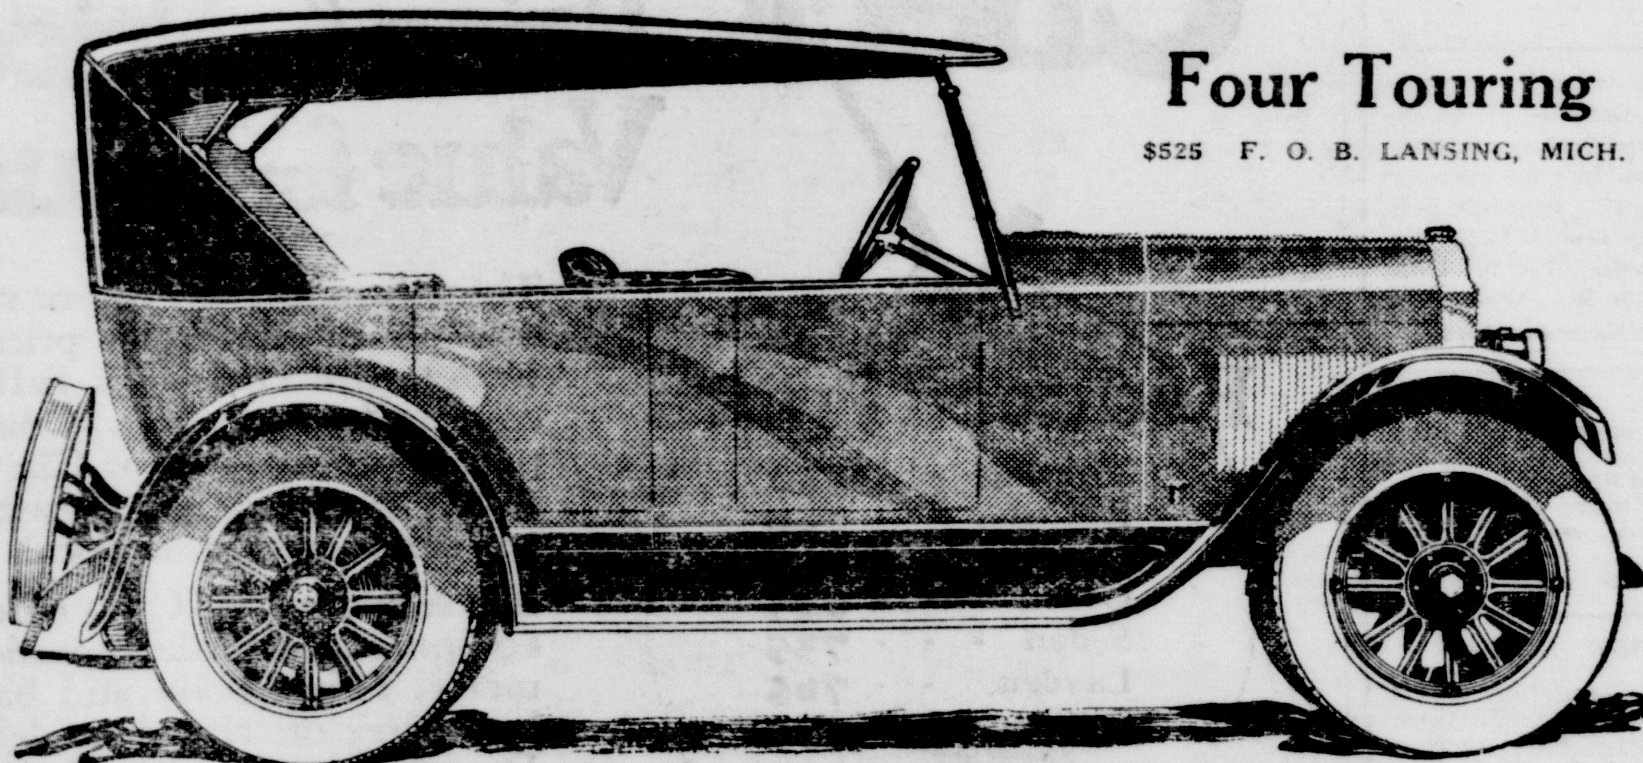

IN THE LINE OF DRY GOODS we
can supply your wants just as readily
and just as satisfactory as you could
wish. Our stock contains all the
variety you would find in many stores
selling dry goods exclusively.

GUARANTEED PREST-O-LITE BATTERIES. \$15.50 AND UP. WE CHARGE AND REPAIR ANY MAKE. BATTERY SERVICE FREE. CITIZENS MOTOR CAR CO.

The Sophomore Class of Hondo High School had a party at the home of A. B. Brucks, Saturday night. Sandwiches, cake and punch were served. The girls and boys all reported a wonderful time.

Dr. Eby, Dean of the School of Education at the State University, and father of Prof. Eby, the Principal of the Hondo High School, was here Monday and made an interesting talk to the pupils at the High School.

J. D. Hueschen was a business caller at this office Wednesday. Mr. Hueschen says his corn is all planted and he has a splendid season in the soil so much so that a few timely showers and he will be sure of a crop, barring some disaster other than drought.

T. R. Harriman, a prospector from Pasadena, California, was here looking over prospects for our section and he and Charles J. Schuchle were business callers at this office Friday morning. Mr. Harriman was well pleased with our section and was particularly impressed with our oil fields.

While coming to town from the Ina Oil Fields, Monday afternoon in an auto, an accident occurred in such a way as to throw the two occupants out of the car. One young man, Barrington Hubert had his shoulder broken, and was otherwise bruised up. His injuries were so serious that he was taken to a hospital in San Antonio where he underwent an operation Wednesday. Since the operation on his broken shoulder, he is progressing favorably towards recovery.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can get a restful sleep after the first application. Price 60c.

To Stop a Cough Quick
Take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.
A box of GROVES' O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.
The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of the skin upon stops a cough.
Both remedies are packed in one carton and the cost of the combined treatment is 35c.
Just ask your druggist for HAYES' HEALING HONEY.

Our Castroville Page

Local, Personal and Business Items from This Busy Burg

CASTROVILLE, TEXAS, FRIDAY, MARCH 5, 1926.

ED. HUEHNER, Local Representative

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

We learned too late for last week's issue that a birthday party was celebrated for Mrs. Richard Tuerpe at the home of her daughter, and son-in-law, Mr. and Mrs. Wm. Brieden on Sunday, February 21, the occasion being the lady's eighty-fifth anniversary of her natal day. Those present were: Mr. and Mrs. R. Tuerpe, the honoree, Mr. and Mrs. Wm. Brieden and family, Mr. and Mrs. Henry Tuerpe and son, of San Antonio, Mr. and Mrs. F. A. Tuerpe and Mr. and Mrs. Albert Tuerpe of Lytle, Mr. and Mrs. Aug. Schott, Jr. and baby of Devine, Mr. and Mrs. Harry Hans and son, Mrs. Jos. Brieden, Mr. and Mrs. E. F. Bippert and Mrs. Hilda Franger of Sauz. Mr. Bippert is the only surviving brother of the honoree. The day was pleasantly spent in feasting and celebrating the happy event. We join

the many friends of the venerable lady in wishing her many more happy returns of her natal day.

Messrs. A. G. Eckhart of Dunlay and E. E. Lehmberg of Hondo were Castroville business visitors last Tuesday afternoon.

Mrs. Peter Groff and sons, Oscar and Claud, and daughter, and son-in-law, Mr. and Mrs. Joe Young of San Antonio visited Mrs. Jacob Groff here Sunday.

John W. Hans of East Side was an Alamo City visitor Sunday.

Shoemaker R. Mueller was at San Antonio Tuesday on business bound.

A. E. Halbardier, the blacksmith and wheelwright, made a flying business trip to Kelly Field this (Tuesday) morning. He made the trip, there and back, in less than two hours.

SOUTHERN PACIFIC TO GIVE PRIZES.

The Southern Pacific Lines, thru the Agricultural Department, will offer two first and two second prizes for articles on "The Best Method of Farm Diversification."

Contest for one first and one second prize will be open to all members of Boys and Girls Clubs, composed of farm boys and girls living in Texas counties through which the Southern Pacific Lines run.

Contest for the other first and second prize will be open to any person giving most of his or her time to cultivating Texas lands in counties through which the Southern Pacific Lines run.

The prizes will consist of a trip to Houston, with transportation and maintenance expense paid, and broadcasting by the contestant of his or her prize winning article over radio station KPRC of the Houston Post-Dispatch, Houston, Texas. Those winning the first prize will be given the first trips and those receiving the second prizes will follow.

RULES.

1. Articles submitted to be written on one side of the paper and not contain over 1500 words.

2. Judges to be appointed by T. Walton, President of the Agricultural and Mechanical College of Texas, College Station, Texas.

3. Contest to close March 15, 1926.

4. No article submitted is to be judged but each contestant to place on or her name and address in a sealed envelope and enclose the sealed envelope together with the article submitted, in a large envelope, and mail to the Agricultural Department of the Southern Pacific Lines, Houston, Texas.

The large envelope will be opened and a number placed on the article and the same number on the sealed envelope. The article, after being numbered, will be awarded to the judges, while the sealed envelope will be kept not opened until after the contest is decided.

Each article will be graded on five following points. Each point to be graded from one to twenty, the sum of these will constitute grade on which the awards will be made. The general subject will be "The Best Method of Farm Diversification." The five points to be noted under this subject, and on which grades will be made, are as follows:

Keeping up soil fertility. How to have enough home feeds and foods. The amount and kind of live stock on the farm. Distributing farm work so one will not be overcrowded and another too slack. Marketing farm products.

MADISON, Agricultural Agen. J. I. MCGREGOR, Agricultural Agent,

The party was greatly enjoyed by everyone.

IN LOVING REMEMBRANCE OF COUSIN CLARENCE BURGER.

Dear Clarence, thou hast left us, Yes, left us forevermore, But we will find him with the angels On that bright and golden shore

Oh! that dear one! how we loved him Oh! how hard to give him up; But an angel came down for him, And removed him from the flock.

Lonely the house and sad the hours, Since dear Clarence has gone; But a brighter home than ours Is now little Clarence's home.

Last night happy and smiling; Now to see him no more, For he has passed over the river Rests on the distant shore.

He always seemed to be cheerful, Always a pleasant smile; In Heaven I know I'll meet him, After a little while.

I wonder when my life is ended If friends will feel the same, As they do towards Clarence And never forget him again.

L. M. S.

INFANT SON DIED.

The infant son born to Mr. and Mrs. Anton Burger, of Bader Settlement on Monday, February 15, 1926, died at 7:00 a. m. Friday, February 19th.

His little body was taken to the new cemetery at Quihi at 5:00 p. m. Friday and tenderly laid to rest. The pastor of the New Fountain German Methodist Church, Rev. Moerner, conducted the funeral services. Little Clarence leaves to mourn his parents, two sisters and one brother.

D'HANIS NEWSLETS

A round-up of Local, Personal and Business Items gathered weekly by our Regular Correspondent

Miss Nettie Rieber

to whom all items intended for this column should be handed not later than Wednesday noon of each week. Miss Wernette is authorized to collect and receipt for money due this paper.

Mr. and Mrs. Harry Mueller of San Antonio visited relatives here Sunday.

Mrs. Louis Carle, Sr., and daughter, Miss Aggie, spent Friday in San Antonio.

Valentine Nester was accompanied to Austin by Messrs. Reilly Carle and Will Nester of Hondo last Thursday, where he had an operation performed on his eyes. The many friends of Mr. Nester are hoping that the operation will be a success.

Mrs. L. J. Williams and Misses Selma Stiegler and Carrie Langfeld, motored to San Antonio Saturday.

Mr. and Mrs. Edgar Ney of Laredo visited relatives here Saturday and Sunday.

Mr. and Mrs. John Zinsmeyer spent Friday in San Antonio.

Mrs. Henry Muennink of Hondo is the guest of her parents, Mr. and Mrs. Alfred Zinsmeyer, this week.

Miss Edna Huegele of Alpine is here on a visit to her parents, Mr. and Mrs. Frank Huegele.

Joe Mueller, who completed a course in a barber school in San Antonio, has returned home and opened a barber shop. The many friends of Joe wish him success.

Misses Lena and Louise Rimkus were called to the bedside of their mother, Mrs. Annie Rimkus, who has been quite ill.

Mrs. Albert Dietrich of LaPryor spent a week here with her mother, Mrs. Annie Rimkus.

CHAT AND STITCH CLUB.

Misses Aggie Carle and Agnes Rothe entertained the Chat and Stitch Club at the home of the latter on Saturday afternoon.

A very enjoyable afternoon was spent. A delicious lunch, consisting of potato salad, sandwiches, angel-food cake, and hot chocolate, with candy cones as favors, was served to the guests, Misses Agnes and Marcella Ney, Olga Lieber, and members, Misses Hulda Ney, Irene Finger, Grace Zinsmeyer, Laura Rieber, Marie Koch, Helen Nester, Pauline Zerr, Thelma and Eunice Langfeld, and the hostesses, Aggie Carle and Agnes Rothe.

SURPRISE PARTY.

A surprise party was tendered Mrs. Mary Blatz on Sunday, Feb. 26, at her home below Devine.

Those present were: the honoree and son, Mr. George Blatz, Mr. and Mrs. J. W. Bendele, Mrs. Hortense Bilhartz, Mr. and Mrs. August Bilhartz, Mr. and Mrs. W. D. Schott, Mr. and Mrs. E. J. Bendele, Misses Vinona, Marcella and Hortense Bilhartz and little Miss Lois Beatrice and Doris Marie Schott.

A most delicious dinner was enjoyed by all present. The afternoon was spent in conversation.

In the evening all departed for their homes wishing to have another such gathering real soon.

ONE OF THE CROWD.

A Farmer Boy's Success

From hard work on a farm to the study of medicine was the course Dr. Pierce pursued.

Pierce pursued. Finally he determined to put up in ready-to-use form his "Golden Medical Discovery" so the public could easily procure it. This "Discovery" is a tonic in its effects on the stomach and digestive apparatus; an alterative in its action on the blood, liver and skin. It increases the appetite, stimulates the digestion, enriches the blood, and makes both men and women feel as they did when they were young.

All dealers. Large bottles, liquid, \$1.35; tablets, \$1.35 and 65c. Send 10c to Dr. Pierce, Buffalo, N. Y., for a trial package tablets.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of gripe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store.

BORDEAUX MIXTURE 4-4-50

1. Using two 50-gallon barrels for storage, provide stock solutions as follows:

a. Place 40 gallons of water in one barrel and suspend 40 lbs of bluestone in a loosely woven burlap bag just under the surface of the water. Leave this over night, so that the bluestone will dissolve.

b. Slake 40 lbs of stone lime to a thick paste and dilute with water to 40 gallons in the other barrel.

2. With these stock solutions, the spray may be mixed in one of two ways. Where it is inconvenient to prepare a mixing platform and raise water to that level, method "b" will be found good.

a. Fifty gallons of spray may be prepared by diluting 4 gallons of each stock solution (containing one lb of lime or bluestone to the gallon) to 25 gallons separately, and pouring them together through a sack not burlap or fine brass wire strainer into the sprayer tank.

b. Fifty gallons of spray may be prepared as follows: Take four gallons of the bluestone stock solution (containing 4 lbs of bluestone, pour it through a strainer into the spray tank and add 42 gallons of water. Stir the stock solution of lime and pour 4 gallons (containing 4 lbs of lime) through a strainer into the tank. The mixture in the tank should be stirred thoroughly while the lime milk is being added.

To prepare Bordeaux 3-4-50, substitute 3 gallons of bluestone stock solution for the four given in the above directions for preparing Bordeaux 4-4-50, and add one more gallon of water.

In case hydrated lime is used, for making either strength make up a stock solution one lb to the gallon, and use 5 1/2 gallons to make 50 gallons of spray, reducing the water by 1 1/2 gallons. Barrels containing stock solutions should be kept covered to avoid dilution in case of rain.

If some stock solution remains after each spray application, the level of the solution should be indicated by nails driven in the inside of the barrels, in order that one may know how much water need be added to replace that lost by evaporation.

Stock solutions will keep a long time, but Bordeaux should be used immediately after it is prepared. Never use spray mixture left over from the previous day.

It is necessary to apply the spray at a pressure of 150 to 200 pounds, in order to cover the foliage thoroughly on both sides. The type of sprayer that can be used most effectively and with greatest economy depends on the acreage, location, and condition of the fields. Hand-power double-acting pumps with air pressure chamber, 2-wheeled gasoline power sprayers, and orchard spray outfits are good. In the case of power equipment, a light 2-wheeled machine with sufficient axle and tank clearance to facilitate work in stumpy fields is desirable.

Tell your neighbors to read So Big in Fletcher's Farming. It will cost only a quarter.

TAKE IT TO JENNINGS.

"COLD IN THE HEAD"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds" are generally in a "run down" condition. HALL'S CATARRH MEDICINE is a Treatment consisting of an Ointment, to be used locally, and a Tonic, which acts quickly through the Blood on the Mucous Surfaces, building up the System, and making you less liable to "colds." Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.

TAX REDUCTION POPULAR.

The National Industrial Conference Board shows by a careful survey that there is nothing more unpopular than any proposition to increase federal, state and local taxes.

This statistical body shows that during 1921-23, inclusive, while state and local taxes increased nearly 15 per cent, federal taxes decreased more than 27 per cent.

While federal taxes were reduced \$1,000,000,000 in three years, states and political subdivisions have been borrowing and spending heavily.

In 1919, these subdivisions borrowed \$691,000,000; in 1923, \$1,063,000,000; during 1924, over \$1,300,000,000.

Correspondingly, state and municipal subdivision taxes have increased from \$2,956,000,000 in 1919 to \$4,449,000,000 in 1923, and probably will exceed five billion dollars in 1924.

But the tide has turned and many states and localities have reduced their levies and are proposing further reductions.

The cost of education doubled between 1918 and 1923, costing \$1,530,000,000 for public schools alone in 1922.

High taxation in every form, except possibly public schools and public roads, is on the toboggan slide.—Selected.

"Long Distance" Made Convenient

TELEPHONE USERS here may henceforth give long distance calls of the kind known as "station-to-station" to the local operator who says "Number, please" when you lift the receiver.

The only proviso is that you must know the number of the distant telephone desired. For example, just say: "I want Houston, Preston 2000"

"Person-to-person" calls should be handled through the "long distance" operator as heretofore.

Number, please?

INA OIL COMPANY TESTS MON- DAY ON MOSES GRIFFIN.

Ina oil Company has a pure quartz sand in its well on the Viola Wilson farm in Medina County in the Moses Griffin survey No. 343 and has hit the sand 300 feet higher than in the present producing center of the Ina field in the Durst survey. The sand was topped at 885 and cored down to 910 and was still in the sand. Casing was set some days ago and bailed some time Monday. It looks like a good well and will probably have no trouble with loose sand.

Golden West Oil Company's No. 4 well, the one farthest to the east, is in and making 140 to 150 barrels free from water and has no liner. This well, according to Mr. Olmstead is not troubled with the loose sand as the other wells here. No. 3 well was put on the pump the past week. It is planned to pull the liner in the No. 1 and set the working barrel to the bottom of the casing. The loose sand that has been causing trouble has filled up the holes in the liner and since a cavity is formed in the wells due to the pumping out of the sand the elimination of the liner will probably solve much of the trouble.

Golden West's No. 3 well put on the pump Friday morning started off at the rate of about 20 barrels a day but by noon was pumping at the rate of 75 barrels a day and continuing to increase.

Ina Oil Company will core again after drilling in its well on the Moses Griffin survey Monday and continue to core until the thickness of the sand is tested out. Witherspoon Oil Company on the Nixon lease south of the Moses Griffin is drilling at 1,100 feet in gumbo and will test the deeper sands, probably down to the Edwards lime.

Magnolia Petroleum Company, which bought a big block of leases in the Durst survey from the Ina Oil Company has a Star rig in the field working over the five wells bought from the Ina Oil Company and it is understood plans to move in another rig and clean out all the wells and put them on production.

F. A. Brown, whose faith in oil in Medina County resulted in the Ina Company bringing in the discovery well in the Ina field, drilled his first well six years ago on John Ward Survey No. 18, up the Hondo river a few miles from where the discovery well was later drilled. His first well was good for a half a barrel a day at 442 feet. Going down the dip his next effort was the No. 1 Schmidt in the Durst survey that got oil in commercial quantities at about 925.

Mr. Brown is telling his friends that there is oil all the way across Medina County due east and west from the Ina field. Not in one solid pool, of course, but in separate areas. Due to the influence of the Balcones Fault the trend of the pools will be east and west instead of northeast-southwest as in Caldwell and Bastrop counties. Locations too far south will get salt water in the same horizon that the Ina field gets oil.

Ina Oil Company has made a location in the Charles Finger tract in the George E. Harrison survey No. 746 and on the east side of Seca creek and will have a rig on the location in a short time and start a test. The location is almost due west of the Ina field, being a very little north and is but a short distance south of the junction of the Parker creek and Seca creek as shown on the Haass map.—Sunday's Express.

INA OIL COMPANY IS BRINGING IN ITS WELL IN MEDINA.

Ina Oil Company Wednesday was setting liner and bailing its No. 1 Viola Wilson in Medina county in the Moses Griffin survey No. 343 and the cores taken indicate that it will make one of the best wells in the field. The sand is coarser and harder. The well topped the pay at 885 and the bottom of the hole is 940. Casing is set just above the pay.

Bringing in of the Ina well will extend the field a little over a mile to the west from the nearest producers in the Durst survey of Eastham & Tarver, the Golden West and Gibson Oil Company and the next test that may extend the field is the L. Smith well in the Jay C. Jay tract that is now preparing to drill. Pro-

duction in the Ina new well in the Moses Griffin survey from actual gauge will not be known for a few days till after it has been on production but it looks fully as good as any if not better. The Smith well is over a mile west of the Ina well.

Golden West Oil Company had the derrick up Tuesday and boiler set and part of the rig in place for the No. 1 Schmidt which is one location west of its No. 3 and is the farthest west of any of its wells. The No. 4 is just going on the pump and the other three pumping from the central power plant.

In the new shallower pool four miles south of Hondo the Medina Oil Company's Taylor No. 1, the 356-foot discovery well is waiting on steel storage. It was recently put back on pump after being shut down, while casing was being cemented to shut out water and was pumped a short time and filled up the available storage. There is one 500-barrel tank and two smaller tanks and the 500-barrel tank was filled when the well was first pumped. Southern Steel Company is now erecting a 5,000-barrel tank on the lease and the first section of plates were up Tuesday and the second section laying on the ground ready to put up. The well in the meantime is idle till storage is available.

Taylor No. 2 of the Medina Oil Company an offset to the west was drilling Tuesday at about 225 feet, Bryan Patterson drilling it on contract with a spudder. Golden West Oil Company's No. 1 Odem, across the road to the east from the Taylor No. 1 is drilling below 300 feet. It has been running day and night crews and made more headway. It should be ready to complete in a few days. Al Buchanan is rigging up on his No. 1 Odem, a little north of the Golden West's Odem and should be drilling by Thursday. All three of the new tests in that field are being drilled with spudding machines.

The discovery well and its two offsets west and east are on a bluff and the Buchanan well to the north is down in the edge of the bluff. This bluff takes a northwest and southeast trend and extends all the way down nearly to the Ina field following Live Oak Creek.

New tests are frequent announcements in Medina County. Kittle & Townley have spudded in on the Richter tract on survey 89 a few miles northwest of the Taylor No. 1 and are drilling at about 225 feet. K. Reager et al have a location made on the west 80 acres of the north half of the M. Langfeld tract in F. Sauer survey No. 177, a few miles southwest of the Taylor well.

Witherspoon is abandoning his No. 1 Nixon on survey 133 and after the Ina well on the Moses Griffin survey comes in, if it makes a good well Witherspoon will move farther north to the north line of his lease which adjoins the Ina's lease on the

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE.

south. Gibson Oil Corporation No. 3 Viola Wilson is drilling in.

Magnolia has a Star rig in the Ina field working over the wells on the leases bought from the Ina Oil Company.—Thursday's Express.

FIRST SHIP LOAD NITRATE REACHES TEXAS PORT.

The arrival Monday, March 1st, of the British steamer, Eastern City, loaded with Nitrate of Soda at Port Houston marked the beginning of an enormous tonnage of this essential fertilizer thru the port. Such a movement will make it possible for the farmers to receive their Sodium Nitrate distributed from a closer port than has been possible heretofore. This fertilizer was one of the most important factors in the producing of 16 bales of 1-16 inch staple cotton on five acres of land by Mr. G. Mont Adams near Tyler Smith County, Texas. Never before have our farmers realized the importance of adding plant food to their soils in order to get the most out of them as they have since they have seen the results obtained in the Cotton Contests.

The Eastern City was chartered especially for this commodity which it brought direct from Chile thru the Panama Canal to Port Houston. This ship load is the fore-runner of a larger tonnage of Sodium Nitrate to follow.

NICE RESIDENCE FOR SALE.

A nice five-room cottage with bathroom and two nice galleries, small barn, good well with windmill and tank, located on half acre of ground in the northeast part of town, for sale at the bargain price of \$1,900.00 on reasonable terms. Ask Fletcher Davis, Manager Hondo Land Co., Agent.

TO LOG SOUTHERN ROUTE TO EL PASO.

A survey of the third highway route from San Antonio to El Paso for an automobile log of the most southern route through this city will be made beginning March 8th, by William H. Furlong of the highway department of the San Antonio Chamber of Commerce.

Furlong recently completed logs showing road conditions, hotels, camping and beauty spots and interesting places to visit along the Old Spanish Trail from San Antonio to El Paso, via Boerne, Kerrville, Sotter and Fort Stockton, and over the Glacier to Gulf and Bankhead highways between San Antonio and El Paso via Fredericksburg, Big Springs and Pecos.

The route to be logged by Furlong at this time is the most Southern route through Uvalde, Del Rio, Comstock, Sanderson, Alpine, Marfa and Valentine to Van Horn where it joins the Old Spanish Trail and continues into El Paso.

Increasing volume of traffic passing over this route and the San Antonio Chamber's desire to be of greater service to this section and to motorists who desire accurate information on road conditions is given by Furlong as a reason for the detailed log of this route.

The survey will include detailed information on condition of roads in various kinds of weather, bridges, ferrets, listing of detours, comfortable hotels and reliable garages. Furlong will be accompanied on his logging trip by Louis Birdsong, Franklin automobile distributor of San Antonio who is furnishing one of the new Series 11 Franklins for the trip.

The logging party will be in the city a short while probably Monday and Tuesday and will call on the local Chamber of Commerce.

FORTY-TWO CLUB.

The hostesses at the meeting of the Forty-two Club on Thursday afternoon were Mrs. R. J. Noonan, C. J. Schuehle and Mrs. Felix Ter. Pink and blue tallies were used in the drawing for partners and pink-blossomed geraniums were effectively used as table adornments.

W. T. Ford, of Italy, Texas and Mrs. F. S. Cockrell were club members. The regular meeting of the Sophian Club will be held at the school house next Wednesday afternoon, March 10th.

The following program will be given:

1. Reading from Mrs. Winter's book.
2. Characterization:

(a) GROUPING—Name the hero and note the choice and grouping of minor characters in "At the Cadian Ball,"—Mrs. Fletcher Davis.

(b) MEANS—Discuss the six means of character drawing in "At the Cadian Ball," and "By the Rod of His Wrath," and the use of reaction in "The Girl at Duke's,"—Mrs. Earl Boon.

(c) METHOD—Study the characters as "type" and "individual" from any two stories in this collection,—Mrs. Alfred Schweers.

(d) DIALOGUE and EFFECTIVENESS. In "Taking the Blue Ribbon" and "Ben and Judas,"—Mrs. John Horger.

Having undertaken to care for and beautify the school grounds, the Parent-Teacher Association finds it a difficult task so long as people drive across the grounds. It is, therefore, respectfully urged that the public cease from driving over the grounds and keep on the street when having occasion to drive in that vicinity. Comply with this request and help maintain the attractiveness of our children's play-ground.

COMMITTEE.

TO THE PUBLIC.

Having undertaken to care for and beautify the school grounds, the Parent-Teacher Association finds it a difficult task so long as people drive across the grounds. It is, therefore, respectfully urged that the public cease from driving over the grounds and keep on the street when having occasion to drive in that vicinity. Comply with this request and help maintain the attractiveness of our children's play-ground.

Square Houses Made for Comfort and Economy

THE ALLEGHENY—DESIGN A-601

ALTHOUGH the tendency is toward the more complex types just now there are many who prefer the square house, knowing that of them all there is none more economical to build or that provides more actual living room in proportion to its floor space. Lacking entirely in the proportions and angles that feature its more popular competitors this house can be built with greater speed, more economy and less wastage of materials than any other type of house that is offered.

Architects will tell you that it takes their best skill to make a square house attractive, yet it has been accomplished here by the simple expedient of a few inexpensive exterior decorations, all of which in addition to being ornamental are of very decided utility and make materially for the comfort of the occupants. Few homes of its size afford more actual living room than does this one.

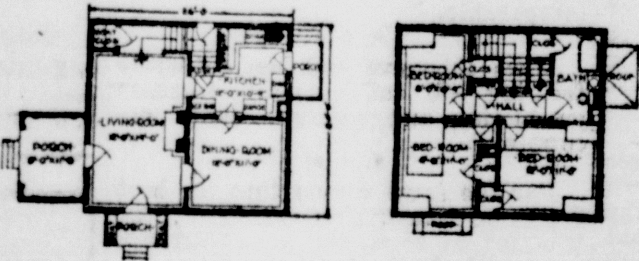

The Common Brick Manufacturers' Association, Cleveland, Ohio, can furnish complete drawings for this design. Leaflet on brick construction sent upon request.

Few are better arranged.

On the first floor are living room, dining room and kitchen, all large. The living room especially so and, were it ever so desired, might be even farther enlarged by inclosing the open living porch and putting in a wider opening with French doors.

The second floor, reached by a stairway leading from the rear of the living room, provides three large bedrooms and bath, the latter unusually commodious. All these rooms are well lighted, have ample closets and open into a center hallway. Storage space is available in the unfinished garret.

Built of common brick with rolok bak hollow walls this type of house could be erected at approximately the same cost as one of the same plan in frame construction. A square house and common brick spell economy every time.

SOPHIAN CLUB.

The regular meeting of the Sophian Club will be held at the school house next Wednesday afternoon, March 10th.

The following program will be given:

1. Reading from Mrs. Winter's book.
2. Characterization:

(a) GROUPING—Name the hero and note the choice and grouping of minor characters in "At the Cadian Ball,"—Mrs. Fletcher Davis.

(b) MEANS—Discuss the six means of character drawing in "At the Cadian Ball," and "By the Rod of His Wrath," and the use of reaction in "The Girl at Duke's,"—Mrs. Earl Boon.

(c) METHOD—Study the characters as "type" and "individual" from any two stories in this collection,—Mrs. Alfred Schweers.

(d) DIALOGUE and EFFECTIVENESS. In "Taking the Blue Ribbon" and "Ben and Judas,"—Mrs. John Horger.

TO THE PUBLIC.

Having undertaken to care for and beautify the school grounds, the Parent-Teacher Association finds it a difficult task so long as people drive across the grounds. It is, therefore, respectfully urged that the public cease from driving over the grounds and keep on the street when having occasion to drive in that vicinity. Comply with this request and help maintain the attractiveness of our children's play-ground.

COMMITTEE.

MINSTRELS DRAW BIG CROWD.

The minstrel show given by the school boys and Prof. Eby at the Auditorium Friday night of last week attracted one of the largest audiences ever gathered in the Auditorium. We are informed that the boys netted something like \$120.00 for the benefit of the athletic fund.

The show was enjoyed by all and the young men acquitted themselves very creditably for amateurs. An outstanding feature of the program was the dancing of the Charleston by Master Russell Crouch.

Mail orders promptly attended to. Phone or write us for any and every thing usually sold in a Drug Store. W. H. Windrow.

WEATHER REPORT.

Hondo, Texas, for month of February 1926: Total rainfall 0.08. Since January 1st, 2.29 inches. Temperature: highest, 85 degrees on 13th; lowest, 31 on 20th. One rainy day, 23 clear, 6 part cloudy, 0 cloudy.

QUIBI NOTES.

The program given last Sunday night by the Quibi Luther League was greatly enjoyed by an overflowing and appreciative congregation. Every number on the program was rendered well. In addition to the regular numbers on the program, Mr. Geo. Heyn addressed the meeting and handed some impressive facts. Such programs are a real treat and benefit to the whole community.

Sunday morning at 9:30 o'clock the Sunday school and Bible class meets in Bethel Lutheran church. Both old and young are invited to come and benefit by attending one or the other class.

The Lenten services, held in Bethel Lutheran church every Wednesday night at 7:45 are well attended and are very interesting. All are welcome.

Regular divine service in Quibi Lutheran church Sunday morning at 10:30 o'clock. All are invited to this and all services in this church.

BAPTIST W. M. U.

The regular monthly meeting of the W. M. U. was held February 25th at the Baptist parsonage with Mrs. W. C. Brown and Mrs. Albert Nelson as hostesses. There were twelve members present and two guests, Mrs. Charles Mackhouse and Mrs. Cranford.

The lesson discussed was "The Whiteness of Japan." This was very interesting as it took up the location, education, religion, literature and customs of the Japanese people. After the discussion the hostesses served delicious cake and pineapple ice beautifully colored in the W. M. U. colors, orange and green.

BECOMES A LIFE MEMBER.

Forth Worth, Texas, March 1.—P. P. Brewster, superintendent of schools at Hondo, has lately enrolled as a life member of the Texas State Teachers Association. There are now 778 such members. It is planned to place a memorial tablet containing the names of the first one thousand life members in the permanent headquarters of the Association.

More than 300 Texas teachers have enrolled as life members during the past year. This is thought to indicate a rapid growth of professional spirit among the teachers of the state.

BIG PRODUCTION OF CHEVROLETS.

Detroit, Mich., Feb. 27.—An unprecedented winter demand for Chevrolet passenger cars and trucks necessitated a production last month nearly three times that of January 1925. It is announced by W. S. Knudsen, president and general manager of the Chevrolet Motor Company.

The January production was more than 44,000, which eclipses any previous January production in Chevrolet history. Under the tentative February production schedule, the company will build more than 51,000 units or nearly twice the number produced in the corresponding month of last year.

The heavy winter production is the result of demand which Chevrolet buyers have made upon the company's dealers since the announcement by President Knudsen of reduced prices and numerous improvements on the entire Chevrolet line.

Instead of storing reserve stocks against the requirements of spring business, the dealers report that they are delivering immediately their shipments of cars to waiting buyers.

Last year the Chevrolet Motor Company led all manufacturers of three-speed sliding-transmission cars by building more than 500,000 units. According to present plans, President Knudsen expects to exceed the 1925 record by a comfortable margin.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. The six bottle

SPRING MANAGEMENT OF BEES.

By Eugene Holloway.

In the fall along about the time of the first killing frost, bees become inactive to a certain extent. Brood rearing ceases and the temperature of the hive is reduced from about 80 degrees F. to near 55 degrees F. When the weather on the outside falls below fifty, the bees of each colony form into a compact ball or cluster. Somewhere in the midst of that living ball is that all important individual, the queen. The temperature of the cluster is maintained the same, regardless of how cold the outside weather gets, provided the fuel holds out. The bees generate heat by the consumption of honey. Many people think that bees, like other insects, hibernate and do not require food during the cold weather, but it is a known fact that if a colony runs out of honey, death follows instantly. However, they use very little honey during the broodless period providing they are housed in a good tight hive, but if not, they often starve even though they have an abundance of honey to begin with.

In the spring as soon as the bees begin to gather pollen and nectar, the queen resumes her work of laying, and of course the temperature of the cluster must again be raised so the brood can develop. It not only requires more honey to maintain the extra heat but the bees use some honey in preparing the food for the young larva. Besides the adult bees eat honey exclusively, and the workers do not go afield in search of food until they are two weeks old. From this we see that the consumption of honey by a colony of bees is much greater in the spring, after brood rearing is resumed, than it is during the broodless period of winter.

The first examination in the spring should take place just as soon after the bees begin work as the weather will permit. At this time we are to see that each colony has a laying queen and plenty of honey to last until the bees can gather from the field.

When there are bees of all ages in a colony, those less than two weeks old do the work inside the colony, while those older than that go afield in search of food for both young and old. But in the early spring, all the bees are several months old so some of them have to remain at home to carry on the household duties until they can rear young bees to take their place, which requires twenty-one days from the time the queen lays the eggs. When the average life of a worker bee during the spring and summer is only from six to ten weeks, we cannot expect these bees that have passed through the winter to live very long after beginning work in the spring. Some young bees must be reared just as soon as possible to replace the old ones which die very rapidly. Therefore we should do everything possible to enable the

colony to come through this critical period. Such as making the hive as tight as we can and see that they have free access to water, and are provided with plenty of honey, etc.

If a colony of bees is to gather anything like a good crop of honey, there must be seventy-five to a hundred thousand workers at the opening of the main honey flow. When we consider that the average colony as it comes out of winter quarters, contains from thirty to forty thousand old workers and a queen, with no young bees to brood, we realize that the queen must be right on the job all the time from early spring until the opening of the honey flow. If this is accomplished, therefore, each colony in the apiary should be carefully examined every ten days to be sure that all is going well. If at any time we come across a colony that for some reason is not getting along as it should, we must right the wrong, even if we have to replace the queen with a young one. If we can have a good, strong force of workers plus a hive full of brood at the beginning of the honey flow, we are almost sure of a good crop provided the flowers secrete nectar and the colonies are furnished with plenty of storage room.

SMALL WORDS WITH BIG MEANINGS.

Farming must pay or the Nation will perish.

A rolling stone gathers no moss: Shipping poor products courts a loss.

The fertility of the soil must be preserved or the land will not produce.

The production of good livestock and successful farming are almost inseparable.

More intensive and less extensive farming will build the soil, increase production and enlarge bank accounts.

For the same reason that the best fruits or vegetables get the "Blue Ribbon" at fairs, the best GRADES command the best prices and justify so.

Plowing under vegetation in the fall puts humus in the soil, increases the fertility and production of the soil, by holding more moisture and preventing the plant food from leaching out.

The terracing of all rolling land is very necessary to hold moisture and

New Method Quickly Banishes Heavy Coughs

Why be annoyed and weakened by persistent, strength-sapping coughing spells when you can, through a very simple treatment, quickly stop all irritation and very often banish the trouble entirely in 24 hours?

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed-time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. Thus, with the throat soothed and cleared, coughing stops quickly and you sleep all night undisturbed.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

plant food and prevent erosion. The best time to do this is now, or just as soon as you can spare the time to do it.

The fruit and vegetable grower who markets only the grade of fruits or vegetables he would be willing to purchase at a fancy price, were he not a grower, very closely follows the teachings of the Golden Rule. By this means follow-up or repeat orders are certain to be received.

"That government is best which governs best," is sound doctrine, provided it is honest, capable, efficient and economical government.

In a republic the people are supposed to rule, but this is violent supposition and may be questioned sometimes.

Is it safer to trust the people to elect the officers or to confer that authority upon clans, cliques, commissions or politicians?

—State Marketing Bulletin.

THE FARMER AND HIS WAGES.

THE farmer receives his money wages in the form of payment for his crops and live stock. These wages are not paid regularly every week or every month, except in part in the case of some dairy farmers, but at irregular intervals varying from three months to a year or more, depending upon the nature of the crop. Neither rate of wages nor hours of work are agreed upon in advance. The consuming public pays, but it makes no agreement as to the amount it will pay. The farmer is urged to produce abundantly, but the price paid him for what he produces is set after the amount of his production is known. The buyers drive the shrewdest possible bargain. The more the farmer produces, the

MARCH 22, 1923

1,000,000

DECEMBER 16, 1925

1,500,000

On March 22, 1923, Buick celebrated the building of the millionth Buick. Approximately eighteen years were consumed in the accomplishment.

On December 16, 1925, Buick reached the million and a half mark. A million Buicks in eighteen years—the next half million in two years and nine months.

At the present time, public demand calls for more than 20,000 Buicks every month. This means the next half million in the hands of Buick owners, within two years.

These bare figures tell a graphic story of Buick's continuous advance in public regard. The great acceleration of demand, at the present time, speaks strongly of the increased value and desirability in the Better Buick.

Leadership belongs to Buick because a nation familiar with many motor cars has given it to Buick.

The American public wants "finest transportation at lower cost", and Buick provides it!
